système 40470

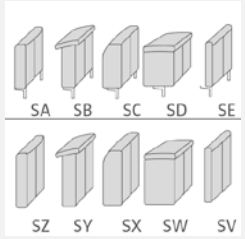
2 seat comforts/2 backrest heights

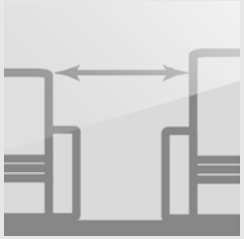
Basic or Boxspring with additional pocket spring core under-springing (surcharge). You can also choose from two backrest heights. See type plan.

10 armparts - 2 flexible



The model is available with different armpart designs. See order information. SD and SW can be equipped with the armpart adjustment with notch function (item no. = SV).

Back heights - tall



The model is available with standard as well as tall backs (items with the appendix "H" and "C"). Both heights cannot be combined with each other.

Contrasting thread

In some leather colours the soft ottomans are available with contrasting-colour thread, at no extra charge. Please always specify the contrasting thread number or tonal colours will be supplied.

"Flame retardant"

Optionally, the "flame-retardant" version of this model can be ordered (art. no. = BK ..). Please specify when ordering.

Order information

Armpart shapes:
The armchairs are available with the armpart shapes SA/SZ and SE/SV, only.
The one arm chaises in connection with the armparts:
The one arm chaises in connection with the armparts SE and SV have no extended seat in width at the front, the armparts simply are connected. In combination with all the other armparts, the seat/ottoman at the end is slightly widened at the front.
Flexible armparts:
In the case of flexible armparts a maximum weight-bearing capacity of up to 25 kg is guaranteed. They are not to be used for sitting on. The adjustable armpart is used in straight or completely opened out function. A position in between is not planned.
The SD and SW armparts are available with armpart adjustment (SV) for surcharge. Please indicate when ordering – N 70 + SD + SV for example. There is adjustable every armpart or none at one sofa.
Version "flame-retardant" not possible in combination with the Boxspring seat comfort: Please note that when choosing the Boxspring seat comfort, the version "flame-retardant" cannot be ordered due to technical reasons.

Free-standing elements:
Please note that the orientation "left/right" is the position of the armpart at the element.
Standard and extra tall elements:
Elements with standard back height are shown light grey coloured, extra tall elements dark grey coloured. Standard tall elements and extra tall elements cannot be combined with each other.
Connecting sides:
For a surcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.
Seam appearance:
Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.
All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height and refer to the leg height of 13 cm as well as armpart SA (width 16 cm). Elements with ottoman have a total depth of ca. 97 cm depending on the ottoman at the end's depth.
Seat depth: ca. **56 cm**

Armpart designs:
off-the-floor, with leg
SA - cubic, straight, width approx. **16 cm**
SB - narrow, with pillow, width approx. **18 cm** - overmeasure + approx. **2 cm**, surcharge
SC - cubic, angled inside, width approx. **26 cm** - overmeasure + approx. **10 cm**
SD - wide, with pillow, width approx. **38 cm** - overmeasure + approx. **22 cm**, surcharge, also available with armpart adjustment
SE - very narrow, rounded on top, widht approx. **8 cm** - **deviation - approx. ca. 8 cm**
on-the-floor, with plastic glider
SZ - cubic, straight, width approx. **16 cm**
SY - narrow, with pillow, width approx. **18 cm** - overmeasure + approx. **2 cm**, surcharge
SX - cubic, angled insice, width approx. **26 cm** - overmeasure + ca. **10 cm**
SW - wide, with pillow, width approx. **38** cm - overmeasure + approx. **2 cm**, surcharge
SV - very narrow, rounded on top, widht approx. **8 cm** - **deviation - approx. ca. 8 cm**
Please note that the armparts SE and SV are smaller than the base armparts SA and SZ. Thus a deviation of approx. 8 cm is given. When ordering one arm chaises in conjunction with the narrow armparts SE and SV, the ottoman at the front of the one arm chaise is not upholstered wide.
Crease formation:
Fabric and leather stretch to a lesser or larger extent under the influence of body weight, which can lead to the formation of creases in the cover. This visual change does not affect use, function and life span and it is not a defect.
Information on the upholstery structure:
Chamber cushions filled with a high-quality mix of polyester fibres and foam rods have been used in the back of this model. This can lead to depression of the individual chambers, which is a typical product characteristic.

Möbel

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

EMAS
GEPRÜFTES UMWELTMANAGEMENT
D-114-00007

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.

Legs

Please note! The legs F7Q, F6P and FV8 are wider than the narrow armparts and protrude into the frame!

Leg colours:
The legs including wood are available in a choice of different stain shades. We are happy to advise you.
Chromatic aberrations:
The wooden structure is different from ordering to ordering. Deliveries after colour samples are basically excluded from complaints and exchange. We take care of the best correspondence possible.
Castors for ottomans:
Every ottoman can be equipped with castors against surcharge. The item number is RO. Two of the castors can be fixed.
Runners:
We assemble visibly matching legs instead of the runner under the corner elements.
Plastic gliders:
The plastic gliders are available for on-the-floor armpart designs, only.
Metal colours:
Some of the metal legs are available in different metal colours. Please indicate the colour when ordering.
Powder coated:
The colours silver M21 and black M99 are powder coated.
Legs and floor protection:
In case of very slender furniture legs with deliberately filigree shapes and with small surfaces, it comes to a raised pressure on the floor. We recommend felt pads or another suitable mat as protection for scratches and pressure points in connection with sensitive and/or soft floors. Even if you barely move the furniture, it can be helpful to have a carpeted floor.
