

[sharko]

A new generation of chairs. Here a full-fledged small workstation is formed - by the storage space under the seat of the swivel chair and with the writing tablet that rotates 360° around the whole chair. At home or in the office; wherever there is work to be done in a small space and without a desk.

Design: Martin Ballendat

Cover: W87/12 red

## Chairs

M W

chair white incl. vapour  
pressure inc. height  
adjustment

(surcharge)

## Accessories

T W 1

tray white incl. 360°  
swivel arm

**44/28/8/52**

T B 1

tray black incl. 360°  
swivel arm

**44/28/8/52**

**All-purpose**

Can be used wherever groups are working together: seminars, workshops, conferences and meetings. A miniature workplace with storage space - mobile, comfortable and creative.

**Clever**

A convenient and easily accessible storage area is integrated below the seat.

**Writing tablet**

A rotating writing pad is mounted on a revolving arm. The writing pad makes it also ideal for work on laptops and tablets - in black or white.

**Adjustable height**

The armchair is equipped with height adjustment with gas spring as standard.

**Star base variations**

The star base of the chairs is available with castors in different hardness or with glides. For surcharge it is available in polished aluminium (item no. RAP) instead of the chair colour.

**Order information****Rotating writing pad:**

The writing pad rotates 360 degrees around the chair, and therefore is optimal for use by right- and left-handed persons. The special twin axle mechanism enables the user not only to swivel the writing pad, but also to draw it closer to his/her body. When not needed it can be conveniently stowed away behind the chair.

**Upholstery of the seat surface:**

The upholstery of the seat surface is only possible in fabric W87/12 red, W87/26 sky, W87/94 anthracite or W87/99 black. If other colours are desired, this is possible for extra charge.

**Versions/colours of the 5-spoke legs of sharko:**

The colours of the chair, 5-spoke leg and tray cannot be combined with each other.

**Order of chair MW (white):**

- 5-spoke leg F 56, F 1N, F 1U, tray (TW1) and castors are of white (colour M10)

**Order of chair MB (black):**

- 5-spoke leg F 56, F 1N, F 1U, tray (TB1) and castors are of black (colour M11)

The castors F 56 are hard and suitable for soft floors (e.g. carpets). The castors F 1N are soft and suitable for hard floors (e.g. tiles, concrete). The castors of F1N have a grey tread. The gliders of F 1U

are always black.

For both chairs (MB and MW) all 5-spoke legs can also be ordered in polished aluminium (colour M12, item no. **RAP**), too. The castor colour depends on the chair colour, only the gliders are black.

**All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height.**

**The base height of the height adjustment is decisive.**

Seat depth: ca. **52 cm**

Seat depth of seat surface: approx. **49 cm**

Overall height with adjustment: min. approx. **86 cm**

and max. approx. **94 cm**

Seat height with adjustment: min. approx. **48 cm**

and max. approx. **56 cm**

Armpart height with height adjustment: min.

approx. **68 cm** and max. approx. **76 cm** (standard height = approx. **72 cm**)

Tablet height with height adjustment: min. approx.

**70 cm** and max. approx. **78 cm** (standard height = approx. **74 cm**)

**Crease formation:**

Fabric and leather stretch to a lesser or larger extent under the influence of body weight, which

can lead to the formation of creases in the cover.

This visual change does not affect use, function and life span and it is not a defect.

**Please note:**

**Special designs may be made on some elements in return for an extra charge. Please consult us. We are happy to make your dreams come true.**

**Order checklist**

- Item no. and cover
- Accessories
- 5-spoke leg implementation
- 5-spoke base and castor colour (polished aluminium for surcharge)

## Frame Structure

- 1. Frame**– semi-rigid, foamed polyurethane, metal
- 2. Seat:** plywood, ergo-PUR foam

### Upholstered furniture made with passion.

Your model is the product of German design and engineering. The family-owned company W.SCHILLIG has more than 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.
