Information on the upholstery structure:

Chamber cushions filled with a high-quality mix of polyester fibres and foam rods have been used in the seat and in the back cushions. This can lead to depression of the individual chambers, which is a typical product characteristic.

Model-specific qualities:

The upholstery of this model has intentionally been made loosely to create a certain visual effect. This is not a quality defect but a model-specific characteristic that guarantees optimum seat

comfort.

Please note:

Special designs may be made on some elements in return for an extra charge. Please consult us. We are happy to make your dreams come true.

Legs and floor protection:

In case of very slender furniture legs with deliberately filigree shapes and with small surfaces, it comes to a raised pressure on the floor. We recommend felt pads or another suitable mat as protection for scratches and pressure points in connection with sensitive and/or soft floors. Even if you barely move the furniture, it can be helpful to have a carpeted floor.
